Function Manufacturing
Function Segment Shop Operations
U.S. State, China or Canada Pennsylvania
Provinces
City Erie
Postal Code 16531-0001
Relocation Expenses No

Role Summary/Purpose
The Process Technical Advisor will be responsible for defined work or projects with moderate complexity. In this role, you will follow an individual work plan, meet day-to-day short-term objectives, and resolve issues through immediate action or short-term planning.

Essential Responsibilities
In addition you will:
- Provide manufacturing / technical assistance and leadership to assigned team
- Utilize Six Sigma and productivity tools to improve process variation
- Maintain production schedule requirements and interface with internal and external customers
- Actively participate in Environment, Health, and Safety initiatives
- Actively participate on cross-functional teams and demonstrate necessary leadership and coaching skills to other team members
- Develop and execute stable manufacturing operations for work areas
- Support and meet production schedules, drive productivity and quality initiatives, and manage the area within budget guidelines and controls

Qualifications/Requirements
- Bachelor's Degree from an accredited college or university (Or a High School Diploma / GED with a minimum of 4 years of professional work experience)
- Minimum of 1 year of experience in Manufacturing, Quality, Sourcing, or Operations

Eligibility Requirements:
- Willingness and ability to travel, as required

GE will only employ those who are legally authorized to work in the United States for this opening. Any offer of employment is conditioned upon the successful completion of a background investigation and drug screen.
I am able to meet and excel in the current requirements needed to fulfill the job of Process Technical Advisor and to be a contributing member for the team. I am very driven and goal oriented in the work atmosphere along with having management and organizational skills that will allow me to preform to full expectations. I have best demonstrated these skills through my involvement in the Manufacturing Apprenticeship program. (General Electric, 2014)

Being a new manager the bureau of labor statistics indicates that the average annual salary of the lowest tenth percentile in the Erie area is $55,240, which is only $10.00 less than the national average. Based on this statistic my expectation is to meet $65,000 a year because of having three years of employment with the company. (Bureau of Labor Statistics, 2013)
